### Test Interface and Controls

A set of controls appears on each test question screen, allowing you to perform the following functions:

<table>
<thead>
<tr>
<th>Control</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1:545</strong></td>
<td>A counter appears on the bottom of the screen indicating how many questions you have completed. The total number of questions is not recorded.</td>
</tr>
<tr>
<td><strong>StopWatch</strong></td>
<td>A timer starts when the first question in the test is displayed, giving you an indication of how many items remain. Note: Transition time between questions is not counted against total allotted exam time.</td>
</tr>
<tr>
<td><strong>Previous Question</strong></td>
<td>On simulation questions, a Reset button will reset the question, allowing you to try the question again. (Note: If you click the Previous Question button at the bottom of the screen will return you to the previous test question. If you click this button before submitting an answer, your answer will not be recorded.)</td>
</tr>
<tr>
<td><strong>Next Question</strong></td>
<td>The Next button moves you to the next question in the test. (Note: If you click the Next Question button before submitting an answer, this allows you to skip the question without providing an answer. If you click on the Next Question button AFTER providing an answer, your answer is recorded and you will move to the next question in the test.)</td>
</tr>
<tr>
<td><strong>Skip</strong></td>
<td>You can use the Skip button to skip a question and return to it when you have seen or completed all the other questions in the exam.</td>
</tr>
</tbody>
</table>

Select the **Work for Review** check box to mark an item for review when you review the list of items at the end of the test. The following screen explains how the review option allows you to return to all questions that have been previously skipped, answered, and/or marked for review.

Click the **Menu button** to go to the review screen.

Click the **NEXT button** to continue the tutorial.
Some questions are multiple choice, asking you to select a single response from a list of choices. To answer a multiple-choice question, select the best response to the test question.
