take-out
Schedule a custom session of your choice for your department with our ATRC training staff!
We offer a full menu of “single-serving” sessions or “full meals,” depending upon your time, needs, and interests. Join us for a “snack” or a “banquet” of skills, technology, and news-you-can–use for the classes you deliver. We shall launch our new menu with our “Bistro Series” Plenary Sessions.

While it helps to make a reservation to ensure a seat, you are always welcome to come on over and join the fun. We are your academic technology side of the Palomar College family!

Room LL-109 (computer lab)

[You will be notified about different locations for classroom or online class, if registered.]

Please enroll with the Professional Development Office.
http://www.palomar.edu/pd/

If you attend at least one session from each menu section, you will earn a BADGE!

Trainers: Terry Gray, Lillian Payn, David Gray & Chris Norcross
