STEM CENTER CLOSED SPRING 2016

The anticipation is over; the STEM Center is now being remodeled! At the moment, the STEM Center looks very different than when we last left it in December. The tables and chairs have been moved out, and Mr. Bones along with the other anatomy models have been securely housed in other locations. The counseling office has been removed and a couple of other walls have come down as well. As for the staff, we are keeping out of the way of all this amazing transformation.

Looking at the STEM Center from the SI Classroom.

Looking into the new expansion area.

Due to the construction work, which is already happening, the STEM Center will not be open during Spring 2016. However, we will continue to offer tutoring, counseling, workshops, the STEM newsletter, and weekly updates for our STEM Scholars. We will also maintain the campus community up to date with important STEM Center information. We appreciate all your patience and understanding as we make the STEM Center bigger and better.

TUTORING, SUPPLEMENTAL INSTRUCTION (SI), AND LEARNING ASSISTANT (LA) ACTIVITIES

Since the STEM Center will be closed during the Fall semester, limited tutoring services will be temporarily relocated in the NS Building and other designated areas. Tutoring will begin the second week of Spring 2016 on **Monday, January 25th**. Tutoring hours will be found on the STEM Center website and will also be found on the NS Building bulletin boards. The Tutoring schedule will be posted at the end of the first week of the semester.

This semester we are also happy to be bring back Supplemental Instruction for a limited number of courses. We appreciate the faculty who have accepted to work with us this semester to once again offer SI activities. We will also continue to offer the Learning Assistant program, provided through the STEP Grant, coordinated by Michael Deal.

COUNSELING

Academic counseling will still be available to STEM Scholars. Even though we will not have the STEM Center, a counselor will be available on the following days and times:

Monday
8:30am-3:30pm
Wednesday
2:30PM-5:30 PM

Come to NS-321 to make an appointment or call extension 2265.
