The Rings

The One

Originally made by Sauron so he could rule the wills of all by controlling all the other Rings of Power. The One is cut from Sauron's finger by Isildur who loses it in the Anduin, to be found by Deagol, stolen by Smeagol, and again by Bilbo who gives it to Frodo who destroys it.

Seven Rings of the Dwarf Lords

Three were recovered by Sauron the other four dragons consumed as they stole from the Dwarf lords.

Nine of Mortal Men

These were used to ensnare nine powerful men who became the Ringwraiths.

Three of Elven Kings

Fairest of all, never touched by Sauron, but still under the power of the One. Therefore the wise Elven Kings used them only when Sauron didn't have possession of the One.
