**COURSE OBJECTIVE:** To familiarize the student with the rise of modern America from the Reconstruction of the United States to the present. History 102 will examine the rise of modern America topically, looking at major developments, industrialization, rise to world power, World Wars, the Great Depression, the Post-War society, etc. The major themes of History 102 are modernization, the rise of big business and big government, the rise to world power, and the developments for important minority groups, such as black and female Americans. There will also be a unit on California politics.

**STUDENTS OBJECTIVE:** To value learning, critical thinking, and the acquisition of a historical perspective over the quest for a grade. To participate in class discussions, critique lectures and ask questions, improve note taking, test taking, and writing techniques.

**REQUIRED READINGS:** Text: Boyer, The Enduring Vision, vol. 2

Supplemental: Graebner, True Stories... vol. 2. Cal: Politics of Diversity

No curve is employed. Each midterm is valued at 20 percent of the course grade and the final exam is graded at 50 percent of the course grade. The final 10 percent of the course grade is made up of the worksheets, summary, and the history project. [NOTE: Make-up exams will be allowed only for those students contacting me prior to test.
