The meaning of true success

By Action Jack McClendon

Palomar College's Club Success is not your typical student body club. This one has a truly noble purpose in "promoting the ideals and application of the meaning of true success," says John Dise, Palomar College professor, counselor and founder of the club.

"True success is measured in the positive impact an individual has on others... All of our club members have a special sense of mission in making the world a better place to live in."

Tiffany Green, Club Success president, is leading the way in helping students understand the importance of being community-minded. Club Success has been advancing the cause of student efforts in raising funds to assist students with mobility challenges/wheel chair bound. Money has also been raised to assist financially challenged students. Last year, the singing legend from San Diego, Frankie "Mr. Rhythm" Laine, donated time, talent, and money to produce a special, open-to-the-public, music concert to advance public awareness about the good works of the club.

Picture above, from left to right, is Bruce Bishop, Director of Student Affairs, Diane McAllister, Coordinator of Assessment and Student Outreach, Club Success President, Tiffany Green, and Palomar College Club Success Community Advisor, My Time columnist and AM1320, KKSM talk show host, Action Jack McClendon. The assembled group are allocating funds to assist needy and deserving Afro-American students.
