Instruction and practice in the art of dramatic script writing. Emphasis is placed on the development of the initial story idea into a viable, professional shooting script for TV or film.

CINE 120  Film Criticism  
3 hours lecture 
Transfer acceptability: CSU; UC

Film criticism refers to the serious and detailed analysis of film. Several critical approaches, i.e. auteur, genre, realism, feminism, will be studied and used to analyze film. These approaches explore film and its meaning through the historical development of the medium, from filmmaking’s technical components, by relating a film or group of films to the social and cultural environment of the time, by focusing on the work in terms of its emotional and psychological impact on the viewer and how it is influenced by the nature of the film industry and financial considerations. We will recognize the collaborative nature of the medium as well as the significance of the individual artist to a particular film or group of films. Films will be screened weekly in class.

CINE 122  Identity in American Film  
3 hours lecture 
Transfer acceptability: CSU; UC

A critical study of how American identity is formed in relation to American cinema. Areas of investigation include race, class, gender, sexual orientation, age, and ethnicity. Screening and analysis of films will be undertaken to investigate how select films reflect, celebrate, modify, and criticize mainstream American values. Off campus programs may be required.

CINE 123  Queer Cinema  
3 hours lecture 
Transfer acceptability: CSU; UC

A study of how historical and cultural conditions have shaped the cinema’s depictions of gay men, lesbians, bisexuals, and the transgendered, and how these “queer” subjects and communities have responded through viewing practices and alternative film and video production.

CINE 125  Beginning Film and Video Field Production  
1½ hours lecture - 4½ hours laboratory 
Recommended preparation: CINE 100 or DBA 100L
Note: Cross listed as DBA 125
Transfer acceptability: CSU; UC – CINE/DBA 125 and 225 combined: maximum credit, one course

PROGRAMS OF STUDY

Computer Science
Computer Science is the study and design of computer systems: both hardware and software. Computer scientists are primarily concerned with the design of algorithms, languages, hardware architectures, systems software, applications software and tools. Emphasis in the Computer Science program is placed on the ability to solve problems and think independently. The program offers a foundation in data structures, computer architecture, software design, algorithms, programming languages, and object-oriented programming. See a Counselor for additional university transfer requirements in this major.
