TOTAL UNITS 27 - 33

COURSE OFFERINGS

Courses numbered under 100 are not intended for transfer credit.

PWM 50 Introduction to Public Works
3 hours lecture
Designed by the American Public Works and Maintenance Superintendents Associations in order to prepare public works and maintenance workers for front line supervisory positions in the Public Works field. The course will apply to the completion of the work proposed on the plans and to estimate a cost for the completion of the work.

Recommended preparation: MATH 15

PWM 51 Street Construction and Maintenance
3 hours lecture
Provides instruction on street construction and maintenance; including materials and methods, specifications, records and cost accounting systems, revenue sources and budget preparation. Other subjects include safety, drainage, equipment records and specifications, as well as public relations. Codes and industry standards that pertain to improvements and repair will be reviewed.

Recommended preparation: MATH 15

PWM 52 Asphalt and Portland Cement
3 hours lecture
Provides instruction on the recommended procedures, practices, and testing criteria used by the Asphalt Institute highlighting local city and county asphalt requirements. Content includes specifications for roads, runway floors, and hydraulic structures and Portland Cement concrete design and uses. Includes transporting, placing, curing, and testing concrete as well as application and construction methods employed.

Recommended preparation: MATH 15

PWM 53 Public Works Inspection
3 hours lecture
Provides an overview of the inspector's role and responsibilities as it relates to a project. The student will be given the necessary information and training necessary for entry level inspection responsibilities. The course will apply to construction of municipal infrastructure and civil engineering type projects.

Recommended preparation: MATH 15

PWM 55 Public Works Administration
3 hours lecture
Provides an introduction to the organizational concepts used by the Public Works Department. Content includes typical organization, management concepts, political considerations, planning, financial management and public relations.

Recommended preparation: MATH 15

PWM 57 Plan Interpretation and Cost Estimating
3 hours lecture
Provides a basic introduction into reading and interpreting construction plans related to public works and street improvement projects. Will provide the student with the fundamental understanding of how construction plans relate to actual construction and how to use the plans to determine the quantity of materials needed to complete the work proposed on the plans and to estimate a cost for the completion of the work.

PWM 60 Supervision
3 hours lecture
Note: Cross listed as WWT 60
Supervisory aspects of public agencies including organization, decision making, coordination, communication, and public relations. Personnel supervision including coaching, training, evaluation, discipline, team building, morale, and grievances. Safety programs and encouraging safe conditions, actions and attitudes.

COURSE OFFERINGS

Courses numbered under 50 are non-degree courses.
Courses numbered under 100 are not intended for transfer credit.

READ 10 Spelling
1 hour lecture
Non-degree Applicable
Provides necessary skills to increase spelling ability through an introduction to phonetics and the rules of orthography.

READ 11 Spelling II
1 hour lecture
Non-degree Applicable
An intensive study and application of techniques necessary to improve college level spelling ability.

READ 30 Fundamental Reading Skills
3 or 6 hours laboratory
Note: Open Entry/Open Exit; Pass/No Pass grading only
Non-degree Applicable
An individualized computer-assisted instruction program based on in-depth testing, assessment, prescription, and instruction for the improvement of students’ vocabulary and reading comprehension. Emphasis is placed on reading skills and their application to college and life skills materials.

READ 31 Developmental Reading Skills
1 hour lecture - 3 hours laboratory
Note: Open Entry/Open Exit
A computer-assisted instruction program based on individual student assessment to improve vocabulary and literal reading comprehension skills. Weekly lectures will focus on specific vocabulary development and basic comprehension strategies.
READ 32 Intermediate Reading Skills (2)
1 hour lecture - 3 hours laboratory
Note: Open entry/Open exit
An individualized computer-assisted instruction program based on individual student assessment to improve students' command of denotative and connotative vocabulary, and literal and analytical reading comprehension skills. Weekly lectures will focus on the development of figurative vocabulary and the transition between literal and analytical comprehension skills.

READ 47 Reading Topics (.5 - 4)
Units awarded in topics courses are dependent upon the number of hours required of the student. Any combination of lecture and/or laboratory may be scheduled by the department. Refer to Class Schedule.
Non-degree Applicable
Topics in Reading. See class schedule for specific topic covered. Course title will designate subject covered.

READ 48 Basic Reading Skills (4)
3 hours lecture - 3 hours laboratory
Designed to improve the basic reading skills of word calling, vocabulary development, and literal comprehension. Individual reading weaknesses are diagnosed and improved through a variety of instructional materials and reading techniques.

READ 49 Developing College Reading Skills (4)
3 hours lecture - 3 hours laboratory
Designed to improve students' vocabulary and comprehension skills in independent and technical materials including novels and textbooks or technical articles. Using a variety of instructional techniques and individualized practice, students will remedy difficulties with comprehension, vocabulary, and fluency with a goal of reading at or above the 10th grade level.

READ 51 Mastering Reading Skills (4)
3 hours lecture - 3 hours laboratory
Designed for students who need improved reading skills in order to succeed in college courses. In this course, students practice the reading process by reading extensively and intensively in order to develop confidence and enjoyment in reading. Students also read and respond to a variety of materials, including non-fiction and textbook assignments, applying strategies for reading difficult material to facilitate literal and affective comprehension as well as improving critical thinking skills. In addition, students develop writing, vocabulary, discussion and study skills.

READ 197 Reading Topics (.5 - 4)
Units awarded in topics courses are dependent upon the number of hours required of the student. Any combination of lecture and/or laboratory may be scheduled by the department. Refer to Class Schedule.
Transfer acceptability: CSU
Topics in Reading. See Class Schedule for specific topic offered. Course title will designate subject covered.

PROGRAMS OF STUDY

Real Estate Appraisal License Preparation
Real Estate Appraiser Trainee license is required of individuals who are to be employed as appraisers under the control and supervision of licensed or certified real estate appraisers. A license may be obtained by a person who does not immediately intend to be employed by an appraiser. However, no real estate appraisal activity may be performed unless the trainee is in the employ of a licensed or certified real estate appraiser.
An applicant to take the Real Estate Appraisal examination must:
1. Be at least 18 years of age or older.
2. Meet minimum Educational requirements: Applicants for the Trainee or Residential license must provide evidence of successful completion of 150 hours of real estate appraisal education, including 15 hours of USPAP (Uniform Standards of Professional Appraisal Practice). Applicants for the Certified Residential license must provide proof of completion of 200 hours of real estate appraisal education (including 15 hours of USPAP). Palomar College does NOT provide further training that will prepare a student to take the Certified General License.
3. Have the appropriate Experience: No experience is required before obtaining the Real Estate Appraiser Trainee license. 2,000 hours and encompassing no less than 12 months of acceptable appraisal experience is required before obtaining the residential license. 2,500 hours and encompassing no less than 2.5 years of acceptable appraisal experience is required before obtaining the Certified Residential License. This program is designed to meet the educational requirements of two licensing levels of the Office of Real Estate Appraisers (Trainee, and Residential). RE 105, RE 115 or RE 130 is recommended to meet the additional requirements of the Certified Residential License. The program does NOT meet the requirements to prepare a student for the Certified General License.
