individual study in field or library within the field of air transportation.

**AVIA 145**  
Glass Cockpits and GPS Navigation  
1 hour lecture  
Transfer acceptability: CSU  
A practical examination of glass cockpit technology and global positioning system navigation in aviation.

**AVIA 197**  
Aviation Sciences Topics  
(Formerly AERO 197)  
Units awarded in topics courses are dependent upon the number of hours required of the student. Any combination of lecture, laboratory, or lecture/laboratory may be scheduled by the department. Refer to Class Schedule.  
Note: May be taken 4 times.  
Topics in Aviation Sciences. See class schedule for specific topic covered. Course title will designate subject covered.

**AVIA 205**  
Principles of Aerodynamics  
(Formerly AERO 205)  
3 hours lecture  
Transfer acceptability: CSU  
Introduction to the theory of flight; applications of the basic laws of physics to the principles of flight. Aircraft design is considered with respect to airfoils, wings, viscous effects, propellers, and aircraft performance.

**AVIA 210**  
Aviation Safety and Accident Investigation  
(Formerly AERO 210)  
3 hours lecture  
Prerequisite: AVIA 105 or Private Pilot Certificate  
Transfer acceptability: CSU  
Accident prevention principles through a study of recent mishaps. Pilot physical and psychological factors and their role in mishaps. A study of crash survival and post-crash survival techniques. Fundamentals of mishap investigation and reporting.

**AVIA 215**  
Complex Aircraft Systems and Propulsion  
(Formerly AERO 215)  
3 hours lecture  
Prerequisite: AVIA 105 or Private Pilot Certificate  
Transfer acceptability: CSU  
Turbojet and turboprop engines and their operation. Electrical, pressurization, hydraulic, and fuel systems will be examined.

**AVIA 220**  
Regional Airline Aircraft Systems  
(Formerly AERO 220)  
3 hours lecture  
Prerequisite: AVIA 105  
Transfer acceptability: CSU  
Engine, fuel, hydraulic, electrical, flight control, pressurization, ice protection, pneumatic, warning, and navigation systems of a typical regional airline jet will be examined. Aircraft performance will be calculated.

**AVIA 295**  
Directed Study in Aviation Sciences  
(Formerly AERO 295)  
3, 6, or 9 hours field work  
Prerequisite: AVIA 100 and approval of project proposal  
Note: May be taken 4 times  
Individual study in field or library within the field of air transportation.

**Biology (BIOL)**  
Contact the Life Sciences Department for further information, (760) 744-1150, ext. 2275  
Associate in Arts degree requirements, Certificate of Achievement requirements, and Certificate of Proficiency requirements are listed in Section 6 (green pages) of the catalog.

**MINIMUM TOTAL UNITS 32**

Recommended Electives: BIOL 215; CHEM 100, 110, 110L, 115, 115L; MATH 110, 115, 115L; CSIS 105

**Biology-Preprofessional**

Provides intensive lower division preparation for pursuing advanced studies in biological science, premedical, pre dental, or preveterinarian programs leading towards a Bachelor’s degree and beyond.

Students are advised to consult catalogs of the institution to which they plan to apply to determine special or additional requirements, or see a Palomar College Counselor.

**TOTAL UNITS 39**

Recommended Electives: BIOL 215; MATH 205; PHYS 230, 231, 232; ZOO 203

To satisfy a prerequisite, the student must have earned a letter grade of A, B, C or CR in the prerequisite course, unless otherwise stated.
COURSE OFFERINGS

Courses numbered under 50 are non-degree courses.
Courses numbered under 100 are not intended for transfer credit.

*UC credit limitations –
- BIOL 100, 101/101L, 102 and 200 combined: maximum credit, 4 units
- No credit for BIOL 100 and 101/101L if taken after 200 or 201
- No credit for BIOL 102 if taken after 100, 101/101L or 200 or 201
- BIOL 105, 106/106L and ZOO 145/145L combined: maximum credit, 4 units
- BIOL 114/114L, 118/118L combined: maximum credit, 4 units
- BIOL 130 and 131/131L combined: maximum credit 4 units
- BIOL 185, FCS 165, FCS 185, and HE 165 combined: maximum credit, one course
- BIOL 215, MATH 120, SOC 205, and PSYC 205 combined: maximum credit, one course

BIOL 45A Field Studies in Natural History (.5,1,2,3)
1, 2, 3, 4, 5, or 6 hours lecture/laboratory
Note: May be taken 4 times; designed for families. Recommended for children between the ages of 8-14. Parent or guardian must accompany children. See class schedule or contact the Life Sciences Department for locality to be visited, and more information. Fee charged.
Field studies of plant and animal species encountered in various habitats, including systematics and major structural and functional characteristics of the taxonomic groups to which these species belong, and emphasizing each species particular adaptations that favor its survival in its natural habitat.

BIOL 47 Biology Topics (.5-4)
Units awarded in topics courses are dependent upon the number of hours required of the student. Any combination of lecture, laboratory, or lecture/laboratory may be scheduled by the department. Refer to Class Schedule.
Note: May be taken 4 times
Topics in Biology. See class schedule for specific topic covered. Course title will designate subject covered.

BIOL 100 General Biology (4)
3 hours lecture-3 hours laboratory
Note: Not open to students with prior credit in BIOL 101 or 101L, BIOL 102, BIOL 105, BIOL 106/106L.
Transfer acceptability: CSU; UC*
Basic principles of general biology as they relate to the cellular, organismic, and population levels of organization. Includes cell ultrastructure and function, energy transfer, reproduction, genetics, evolution, diversity of organisms, and ecology.
Not recommended for students interested in Biology, Zoology, Botany, Premed, or related majors (see Biology 200 and Biology 201).

BIOL 101 General Biology (Lecture) (3)
3 hours lecture
Note: Not open to students with prior credit in BIOL 100
Transfer acceptability: CSU; UC*
Basic principles of general biology as they relate to the cellular, organismic, and population levels of organization. Includes cell ultrastructure and function, energy transfer, reproduction, genetics, evolution, diversity of organisms, and ecology.

BIOL 101L General Biology (Laboratory) (1)
3 hours laboratory
Prerequisite: Completion of, or concurrent enrollment in, BIOL 101 or BIOL 114
Note: Not open to students with prior credit in BIOL 100, BIOL 102, BIOL 105, BIOL 106/106L.
Transfer acceptability: CSU; UC*
Laboratory exercises in cell structure and function, energy transfer, reproduction, genetics, and ecology. This is a general education course intended for non-science majors.

BIOL 102 Molecules and Cells (4)
3 hours lecture-3 hours laboratory
Recommended preparation: MATH 50

Transfer acceptability: CSU; UC*
The basic principles of biological systems including the chemistry of life, cell structure and function, energy transfer, reproduction, and genetics.

BIOL 105 Biology with a Human Emphasis (4)
3 hours lecture-3 hours laboratory
Note: Not open to students with prior credit in BIOL 100, BIOL 101/101L, BIOL 102, BIOL 106/106L.
Transfer acceptability: CSU; UC*
Principles of cellular, organismal and population biology as exemplified by, and relating to, the human organism. Laboratory includes study of cells, tissues, and mammalian organ systems.

BIOL 106 Biology with a Human Emphasis (Lecture) (3)
3 hours lecture
Note: Not open to students with prior credit in BIOL 100, BIOL 101/101L, BIOL 102, BIOL 105
Transfer acceptability: CSU; UC*
Principles of cellular, organismal and population biology as exemplified by, and relating to, the human organism.

BIOL 106L Biology with a Human Emphasis (Laboratory) (1)
3 hours laboratory
Prerequisite: Completion of, or concurrent enrollment in, BIOL 106
Note: Not open to students with prior credit in BIOL 100, BIOL 101/101L, BIOL 102, BIOL 105
Transfer acceptability: CSU; UC*
Laboratory experiences designed to demonstrate cellular structure and function as they relate to the human organism. An examination of major body systems is included.

BIOL 110 Human Genetics (3)
3 hours lecture
Transfer acceptability: CSU; UC*
Principles of human inheritance including gene transmission, genetic diseases, pedigree analysis, molecular genetics, immunogenetics, and population genetics; relationships to other fields of study will be emphasized.

BIOL 114 Ecosystem Biology (Lecture) (3)
3 hours lecture
Note: See also BIOL 114L
Transfer acceptability: CSU; UC*
Basic principles of general biology as they relate to exemplary ecosystems.

BIOL 114L Ecosystem Biology (Laboratory) (1.5,2)
4½, 5, or 6 hours laboratory
Prerequisite: Completion of, or concurrent enrollment in, BIOL 101 or 114
Note: A fee is required, and additional costs may be incurred. Contact the Life Sciences Department or see the schedule of classes for specific information about the laboratory field sites, dates and fees.
Transfer acceptability: CSU; UC*
Laboratory and field experiences to illustrate and observe biology as it relates to exemplary ecosystems. Typical field sites include the Greater Yellowstone ecosystem, Central America, or the Sea of Cortez.

BIOL 118 General Ecology (Lecture) (3)
3 hours lecture
Transfer acceptability: CSU; UC*
Basic concepts of evolution, population ecology, community ecology, and ecosystem ecology.

BIOL 118L General Ecology (Laboratory) (1)
3 hours laboratory
Prerequisite: Completion of, or concurrent enrollment in, BIOL 118
Transfer acceptability: CSU; UC*
Provides hands-on experiences with ecological concepts, methods, and problem-solving techniques by using the plants and animals of local communities in their natural settings. The majority of laboratory sessions will be devoted to off-campus field studies.
BIOL 130  Marine Biology  (4)
3 hours lecture-3 hours laboratory
Prerequisite: Completion of, or concurrent enrollment in, CHEM 110 or completion of, or concurrent enrollment in, MATH 50
Transfer acceptability: CSU; UC
An introduction to marine biology with an emphasis on the adaptations, classification, and ecology of marine organisms as well as current issues in marine biology. A survey of local marine organisms and habitats. Participation on field trips as scheduled is required.

BIOL 131L  Marine Biology (Laboratory)  (1)
3 hours laboratory
Prerequisite: Completion of, or concurrent enrollment in, BIOL 130
Transfer acceptability: CSU
A survey of local marine organisms and local marine habitats. A field trip oriented course; participation on field trips as scheduled is required.

BIOL 135  Marine Mammals: Biology and Ecology  (3)
3 hours lecture
Prerequisite: Completion of, or concurrent enrollment in, BIOL 130
Transfer acceptability: CSU
Basic biology and ecology of marine mammals. Special emphasis on behavior, adaptations, and conservation.

BIOL 160  Biotechnology Preparatory Course  (5)
3 hours lecture-6 hours laboratory
Recommended preparation: MATH 50
Transfer acceptability: CSU
This course is intended as a preparation course for students interested in further studies in biotechnology. The course provides the basic knowledge in math, chemistry, biology, and microbiology for additional biotechnology coursework. Topics include the fundamental chemical processes common in prokaryotic and eukaryotic biology, chemistry of biomolecules, cellular and molecular biology, gene expression and genetic engineering. The laboratory experience provides basic skills and techniques essential to advanced biotechnology courses.

BIOL 161  Biotechnology Methods  (4)
2 hours lecture-6 hours laboratory
Prerequisite: MATH 50, BIOL 100, CHEM 100, or MATH 50 and BIOL 102, or MATH 50 and BIOL 160, or MATH 50 and BIOL 200
Transfer acceptability: CSU
Biotechnology Methods includes current basic theory and laboratory skills used in biotechnology industry. Lectures cover concepts such as recombinant DNA technology and basic protein biochemistry. The laboratory illustrates lecture topics through preparing a recombinant plasmid, transformation of the recombinant plasmid into a suitable bacterial host, verification of the process by identification and analysis of the recombinant bacteria, growth of the recombinant bacteria, expression of the protein encoded by the recombinant plasmid and purification and analysis of the expressed protein.

BIOL 185  Science of Human Nutrition  (3)
3 hours lecture
Prerequisite: Completion of, or concurrent enrollment in, CHEM 110
Transfer acceptability: CSU
Science of food, nutrients, and other substances therein; processes by which the organism ingests, digests, absorbs, transports, utilizes, and excretes food substances. Emphasis on biological, chemical, and physiological implications to human nutrition.

BIOL 195A  Field Studies in Natural History  (1,2,3)
2, 4, or 6 hours lecture/laboratory
Note: Fee charged; may be taken 4 times
Transfer acceptability: CSU; UC – Credit determined by UC upon review of course syllabus.
Field studies of plant and animal species encountered in various habitats, including systematics and major structural and functional characteristics of the taxonomic groups to which these species belong, and emphasizing each species’ particular adaptations that favor its survival in its natural habitat. See Class Schedule for locality to be visited.

BIOL 195B  Field Studies in Ecology  (1,2,3)
2, 4, or 6 hours lecture/laboratory
Note: Fee charged; may be taken 4 times
Transfer acceptability: CSU; UC – Credit determined by UC upon review of course syllabus.
Field study of the fauna and biota of selected geographic regions, with emphasis placed upon field identification, observation and interpretation of behavioral and ecological interrelationships of living things to their environment and to one another. See Class Schedule for locality to be visited.

BIOL 195C  Field Studies in Marine Biology  (1,2,3)
2, 4, or 6 hours lecture/laboratory
Note: Fee charged; may be taken 4 times
Transfer acceptability: CSU; UC – Credit determined by UC upon review of course syllabus.
Field study of the unique ecology of islands, emphasizing systematics, speciation, observation and interpretation of the interactions of indigenous and exotic biota, and how the biotic communities of the study island(s) have adapted to the special limitations of their confined environments. See Class Schedule for locality to be visited.

BIOL 195D  Field Studies in Island Ecology  (1,2,3)
2, 4, or 6 hours lecture/laboratory
Note: Fee charged; may be taken 4 times
Transfer acceptability: CSU
Field study of the fauna and flora of selected tropical regions, with emphasis placed upon field identification, observation and interpretation of behavioral and ecological interrelationships of living things to their environment and to one another. See Class Schedule for locality to be visited.

BIOL 195E  Field Studies in Tropical Biology  (1,2,3)
2, 4, or 6 hours lecture/laboratory
Note: Fee charged; may be taken 4 times
Transfer acceptability: CSU
Field study in the fauna and flora of selected tropical regions, with emphasis placed upon field identification, observation and interpretation of the interactions of indigenous and exotic biota, and how the biotic communities of the study island(s) have adapted to the special limitations of their confined environments. See Class Schedule for locality to be visited.

BIOL 197  Biology Topics  (5-4)
Units awarded in topics courses are dependent upon the number of hours required of the student. Any combination of lecture, laboratory, or lecture/laboratory may be scheduled by the department. Refer to Class Schedule for locality to be visited.

BIOL 200  Foundations of Biology I  (5)
3 hours lecture-6 hours laboratory
Prerequisite: Completion of, or concurrent enrollment in, CHEM 110
Transfer acceptability: CSU

To satisfy a prerequisite, the student must have earned a letter grade of A, B, C or CR in the prerequisite course, unless otherwise stated.
Botany (BOT)

Contact the Life Sciences Department for further information, (760) 744-1150, ext. 2275

COURSE OFFERINGS

BOT 100 General Botany (4)
3 hours lecture-3 hours laboratory
Prerequisite: A minimum grade of ‘C’ in MATH 110, and a minimum grade of ‘C’ in BIOL 201
Transfer acceptability: CSU; UC

An introduction to the diversity of life, as seen in the Eubacteria, Archaea, and Eukarya, emphasizing the integration of structure and function, development, life histories, phylogenetics, animal behavior, and ecology. Recommended for biology majors.

BOT 101 General Botany Lecture (3)
3 hours lecture
Prerequisite: Not open to students with prior credit in BOT 100
Transfer acceptability: CSU; UC – BOT 100 and 101/101L combined: maximum credit, 4 units; CAN BIOL 6

The diversity, structure, and function of major plant groups including cellular metabolism, soil water relationships, classification, genetics, life cycle patterns, growth, and the basic ecological and evolutionary concepts of botany. This is a general education course intended for non-science majors.

BOT 101L General Botany Laboratory (1)
3 hours laboratory
Prerequisite: Completion of, or concurrent enrollment in, BOT 101
Note: This course does not qualify for mathematics credit

A laboratory course in plant biology. Special emphasis on the structure, growth, function, genetics, and life cycles of major plant groups. This is a general education course intended for non-science majors.

BOT 110 Botany of Spring Wildflowers (4)
3 hours lecture-3 hours laboratory
Transfer acceptability: CSU; UC

The identification, distribution, and interrelationships of plants in their natural environment; ecological principles; and representative plant communities. Special emphasis will be given to the study of plant families and the use of taxonomic keys.

BOT 115 Plants and People (3)
3 hours lecture
Transfer acceptability: CSU; UC – No credit if taken after 100 or 101/101L

The role of plants in the world ecosystem, including past and present cultural and economic uses for food, medicine, and industrial products. Principles of plant structure and function, with selected topics on plant diversity, plant adaptations, and the interrelationships between plants and people will also be discussed.

BOT 195 Field Study of Native Plants (1,2,3)
2, 4, or 6 hours lecture/laboratory
Note: May be taken 4 times
Transfer acceptability: CSU; UC – Credit determined by UC upon review of course syllabus.

Extended field study of the flora of selected geographical areas including habitats, adaptations, and identification of native and naturalized species. See Class Schedule for locality to be visited. Fee charged.

BOT 197 Botany Topics (5-4)
Units awarded in topics courses are dependent upon the number of hours required of the student. Any combination of lecture, laboratory, or lecture/laboratory may be scheduled by the department. Refer to Class Schedule.
Note: May be taken 4 times
Transfer acceptability: CSU; UC – Credit determined by UC upon review of course syllabus. Topics in Botany. See Class Schedule for specific topic offered. Course title will designate subject covered.

Business Education (BUS)

See also Accounting, Business Management, Insurance, International Business, Legal Studies, Office Information Systems, Paralegal Studies, Real Estate

Contact the Business Education Department for further information, (760) 744-1150, ext. 2488

Associate in Arts degree requirements, Certificate of Achievement requirements, and Certificate of Proficiency requirements are listed in Section 6 (green pages) of the catalog.

PROGRAMS OF STUDY

Advertising, Marketing, and Merchandising

This program is designed to provide a general academic background of coursework pertinent to entry-level employment and/or upper division education in the field of product or service distribution.
