AVIA 125 Instrument Simulator Laboratory (1.5)
1 hour lecture-2 hours laboratory
Prerequisite: Private Pilot Certificate
Note: May be taken 3 times for increased proficiency by utilizing more advanced lesson plans and taped lesson plans in the lab.
Transfer acceptability: CSU
Instrument flight including VOR navigation, holding patterns, and ILS, LOC, NDB, and VOR approaches through use of a ground trainer.

AVIA 140 Aviation Mathematics and Modern Navigation Systems (3)
3 hours lecture
Transfer acceptability: CSU
The nature and properties of numbers and arithmetic operations utilizing the flight computer for improvement in operational efficiency and applications involving all forms of air navigation. Basic principles of modern navigation systems such as Loran, INS/IRS, R NAV, TCAS, GPWS, Flight Directors, and GPS will be examined.

AVIA 145 Glass Cockpits and GPS Navigation (1)
1 hour lecture
Transfer acceptability: CSU
A practical examination of glass cockpit technology and global positioning system navigation in aviation.

AVIA 197 Aviation Sciences Topics (.5-4)
Units awarded in topics courses are dependent upon the number of hours required of the student. Any combination of lecture, laboratory, or lecture/laboratory may be scheduled by the department. Refer to Class Schedule.
Note: May be taken 4 times.
Transfer acceptability: CSU
Topics in Aviation Sciences. See class schedule for specific topic covered. Course title will designate subject covered.

AVIA 205 Principles of Aerodynamics (3)
3 hours lecture
Transfer acceptability: CSU
Introduction to the theory of flight; applications of the basic laws of physics to the principles of flight. Aircraft design is considered with respect to airfoils, wings, viscous effects, propellers, and aircraft performance.

AVIA 210 Aviation Safety and Accident Investigation (3)
3 hours lecture
Prerequisite: A minimum grade of ‘C’ in AVIA 105 or Private Pilot Certificate
Transfer acceptability: CSU
Accident prevention principles through a study of recent mishaps. Pilot physical and psychological factors and their role in mishaps. A study of crash survival and post crash survival techniques. Fundamentals of mishap investigation and reporting.

AVIA 215 Complex Aircraft Systems and Propulsion (3)
3 hours lecture
Prerequisite: A minimum grade of ‘C’ in AVIA 105 or Private Pilot Certificate
Transfer acceptability: CSU
Turboprop and turbojet engines and their operation. Electrical, pressurization, hydraulic, and fuel systems will be examined.

AVIA 220 Regional Airline Aircraft Systems (3)
3 hours lecture
Prerequisite: A minimum grade of ‘C’ in AVIA 105
Transfer acceptability: CSU
Engine, fuel, hydraulic, electrical, flight control, pressurization, ice protection, pneumatic, warning, and navigation systems of a typical regional airline jet will be examined. Aircraft performance will be calculated.

AVIA 295 Directed Study in Aviation Sciences (1,2,3)
3, 6, or 9 hours field work
Prerequisite: A minimum grade of ‘C’ in AVIA 100 and approval of project proposal
Note: May be taken 4 times
Transfer acceptability: CSU
Individual study in field or library within the field of air transportation.

Biology (BIOL)
Contact the Life Sciences Department for further information.

MINIMUM TOTAL UNITS 32

Recommended Electives: BIOL 215; CHEM 100, 110, 110L, 115, 115L; MATH 110, 115, 115S; CSIT 105

Biology-Preprofessional

Provides intensive lower division preparation for pursuing advanced studies in biological science, premedical, predental, or preveterinarian programs leading towards a Bachelor’s degree and beyond.

Students are advised to consult catalogs of the institution to which they plan to apply to determine special or additional requirements, or see a Palomar College Counselor.

Students must receive a grade of ‘C’ or better in each course that applies to an A.A. Degree Major or Certificate.

Recommended Electives: BIOL 215; MATH 205; PHYS 230, 231, 232; ZOO 203

COURSE OFFERINGS

Courses numbered under 50 are non-degree courses.
Courses numbered under 100 are not intended for transfer credit.

*UC credit limitations –
• BIOL 100, 101/101L, 102 and 200 combined: maximum credit, 4 units
• No credit for BIOL 100 and 101/101L if taken after 200 or 201
• No credit for BIOL 102 if taken after 100, 101/101L or 200 or 201
• BIOL 105, 106/106L and ZOO 145/145L combined: maximum credit, 4 units
• BIOL 114/114L, 118/118L combined: maximum credit, 4 units
• BIOL 130 and 131/131L combined: maximum credit 4 units
• BIOL 185, FCS 165, FCS 185, and HE 165 combined: maximum credit, one course
• BIOL 215, MATH 120, SOC 205, and PSYC 205 combined: maximum credit, one course

BIOL 45A  Field Studies in Natural History       (5,1,2,3)
1, 2, 4, or 6 hours lecture/laboratory

Note: May be taken 4 times; designed for families. Recommended for children between the ages of 8-14. Parent or guardian must accompany children. See class schedule or contact the Life Sciences Department for locality to be visited, and more information. Fee charged.

Non-degree Applicable
Field studies of plant and animal species encountered in various habitats, including systematics and major structural and functional characteristics of the taxonomic groups to which these species belong, and emphasizing each species particular adaptations that favor its survival in its natural habitat.

BIOL 47  Biology Topics                         (5-4)
Units awarded in topics courses are dependent upon the number of hours required of the student. Any combination of lecture, laboratory, or lecture/laboratory may be scheduled by the department. Refer to Class Schedule.

Note: May be taken 4 times
Non-degree Applicable
Topics in Biology. See class schedule for specific topic covered. Course title will designate subject covered.

BIOL 100  General Biology                      (4)
3 hours lecture-3 hours laboratory

Note: Not open to students with prior credit in BIOL 101 or 101L, BIOL 102, BIOL 105, BIOL 106/106L.
Transfer acceptability: CSU; UC*

Basic principles of general biology as they relate to the cellular, organismic, and population levels of organization. Includes cell ultrastructure and function, energy transfer, reproduction, genetics, evolution, diversity of organisms, and ecology. Not recommended for students interested in Biology, Zoology, Botany, Premed, or related majors (see Biology 200 and Biology 201).

BIOL 101  General Biology (Lecture)             (3)
3 hours lecture

Note: Not open to students with prior credit in BIOL 100
Transfer acceptability: CSU; UC*

BIOL 101L General Biology (Laboratory)           (1)
3 hours laboratory

Prerequisite: A minimum grade of 'C' in BIOL 101 or 114, or concurrent enrollment in BIOL 101 or 114

Note: Not open to students with prior credit in BIOL 100, BIOL 101/101L, BIOL 105, BIOL 106/106L.
Transfer acceptability: CSU; UC*

Laboratory exercises in cell structure and function, energy transfer, reproduction, genetics, and ecology. This is a general education course intended for non-science majors.

BIOL 102  Molecules and Cells                   (3)
2 hours lecture-4 hours laboratory

Recommended preparation: MATH 50
Transfer acceptability: CSU; UC*

The basic principles of biological systems including the chemistry of life, cell structure and function, energy transfer, cell division, classical and molecular genetics.

BIOL 105  Biology with a Human Emphasis         (4)
3 hours lecture-3 hours laboratory

Note: Not open to students with prior credit in BIOL 100, BIOL 101/101L, BIOL 102, BIOL 106/106L.
Transfer acceptability: CSU; UC*

Principles of cellular, organismal and population biology as exemplified by, and relating to, the human organism. Laboratory includes study of cells, tissues, and mammalian organ systems.

BIOL 106  Biology with a Human Emphasis (Lecture) (3)
3 hours lecture

Note: Not open to students with prior credit in BIOL 100, BIOL 101/101L, BIOL 102, BIOL 105
Transfer acceptability: CSU; UC

Principles of cellular, organismal and population biology as exemplified by, and relating to, the human organism.

BIOL 106L Biology with a Human Emphasis (Laboratory) (1)
3 hours laboratory

Prerequisite: A minimum grade of 'C' in BIOL 106, or concurrent enrollment in BIOL 106

Note: Not open to students with prior credit in BIOL 100, BIOL 101/101L, BIOL 102, BIOL 105
Transfer acceptability: CSU; UC

Laboratory experiences designed to demonstrate cellular structure and function as they relate to the human organism. An examination of major body systems is included.

BIOL 110  Human Genetics                       (3)
3 hours lecture

Transfer acceptability: CSU; UC*

Principles of human inheritance including gene transmission, genetic diseases, pedigree analysis, molecular genetics, immunogenetics, and population genetics; relationships to other fields of study will be emphasized.

BIOL 114  Ecosystem Biology (Lecture)           (3)
3 hours lecture

Note: See also BIOL 114L
Transfer acceptability: CSU; UC*

Basic principles of general biology as they relate to exemplary ecosystems.

BIOL 114L Ecosystem Biology (Laboratory)         (1.5,2)
4½, or 6 hours laboratory

Prerequisite: A minimum grade of 'C' in BIOL 101 or 114, or concurrent enrollment in BIOL 101 or 114

Note: A fee is required, and additional costs may be incurred. Contact the Life
Biology

This course is intended as a preparation course for students interested in further studies in biotechnology. The course provides the basic knowledge in math, chemistry, biology, and microbiology for additional biotechnology coursework. Topics include the fundamental chemical processes common in prokaryotic and eukaryotic biology, chemistry of biomolecules, cellular and molecular biology, gene expression and genetic engineering. The laboratory experience provides basic skills and techniques essential to advanced biotechnology courses.

BIOL 118 General Ecology (Lecture)  
3 hours lecture  
Transfer acceptability: CSU; UC*  
Basic concepts of evolution, population ecology, community ecology, and ecosystem ecology.

BIOL 118L General Ecology (Laboratory)  
3 hours laboratory  
Prerequisite: A minimum grade of ‘C’ in BIOL 118, or concurrent enrollment in BIOL 118  
Transfer acceptability: CSU; UC*  
Provides hands-on experiences with ecological concepts, methods, and problem-solving techniques by using the plants and animals of local communities in their natural settings. The majority of laboratory sessions will be devoted to off-campus field studies.

BIOL 130 Marine Biology  
3 hours lecture-3 hours laboratory  
Note: Not open to students with prior credit in BIOL 131 or 131L  
Transfer acceptability: CSU; UC*  
An introduction to marine biology with an emphasis on the adaptations, classification, and ecology of marine organisms as well as current issues in marine biology. A survey of local marine organisms and habitats. Participation on field trips as scheduled is required.

BIOL 131 Marine Biology (Lecture)  
3 hours lecture  
Note: Not open to students with prior credit in BIOL 130  
Transfer acceptability: CSU; UC*  
An introduction to marine biology with an emphasis on the adaptations, classification, and ecology of marine organisms as well as current issues in marine biology.

BIOL 131L Marine Biology (Laboratory)  
3 hours laboratory  
Prerequisite: A minimum grade of ‘C’ in BIOL 131, or concurrent enrollment in BIOL 131  
Note: Not open to students with prior credit in BIOL 130  
Transfer acceptability: CSU; UC*  
A survey of local marine organisms and local marine habitats. A field trip oriented course; participation on field trips as scheduled is required.

BIOL 135 Marine Mammals: Biology and Ecology  
3 hours lecture  
Note: Cross listed as ZOO 135  
Transfer acceptability: CSU; UC  
Basic biology and ecology of marine mammals. Special emphasis on behavior, adaptations, and conservation.

BIOL 160 Biotechnology Preparatory Course  
3 hours lecture-6 hours laboratory  
Recommended preparation: MATH 50  
Transfer acceptability: CSU  
This course is intended as a preparation course for students interested in further studies in biotechnology. The course provides the basic knowledge in math, chemistry, biology, and microbiology for additional biotechnology coursework. Topics include the fundamental chemical processes common in prokaryotic and eukaryotic biology, chemistry of biomolecules, cellular and molecular biology, gene expression and genetic engineering. The laboratory experience provides basic skills and techniques essential to advanced biotechnology courses.

BIOL 161 Biotechnology Methods  
2 hours lecture-6 hours laboratory  
Prerequisite: A minimum grade of ‘C’ in MATH 50, BIOL 100 and CHEM 100, or MATH 50 and BIOL 102, or MATH 50 and BIOL 160, or MATH 50 and BIOL 200  
Transfer acceptability: CSU  
Biotechnology Methods includes current basic theory and laboratory skills used in biotechnology industry. Lectures cover concepts such as recombinant DNA technology and basic protein biochemistry. The laboratory illustrates lecture topics through preparing a recombinant plasmid, transformation of the recombinant plasmid into a suitable bacterial host, verification of the process by identification and analysis of the recombinant bacteria, growth of the recombinant bacteria, expression of the protein encoded by the recombinant plasmid and purification and analysis of the expressed protein.

BIOL 185 Science of Human Nutrition  
3 hours lecture  
Note: Cross listed as FCS 185  
Transfer acceptability: CSU; UC  
Science of food, nutrients, and other substances therein; processes by which the organism ingests, digests, absorbs, transports, utilizes, and excretes food substances. Emphasis on biological, chemical, and physiological implications to human nutrition.

BIOL 195A Field Studies in Natural History  
2, 4, or 6 hours lecture/laboratory  
Note: Fee charged; may be taken 4 times  
Transfer acceptability: CSU; UC – Credit determined by UC upon review of course syllabus.  
Field studies of plant and animal species encountered in various habitats, including systematics and major structural and functional characteristics of the taxonomic groups to which these species belong, and emphasizing each species’ particular adaptations that favor its survival in its natural habitat. See Class Schedule for locality to be visited.

BIOL 195B Field Studies in Ecology  
2, 4, or 6 hours lecture/laboratory  
Note: Fee charged; may be taken 4 times  
Transfer acceptability: CSU; UC – Credit determined by UC upon review of course syllabus.  
Field study of the fauna and biota of selected geographic regions, with emphasis placed upon field identification, observation and interpretation of behavioral and ecological interrelationships of living things to their environment and to one another. See Class Schedule for locality to be visited.

BIOL 195C Field Studies in Marine Biology  
2, 4, or 6 hours lecture/laboratory  
Note: Fee charged; may be taken 4 times  
Transfer acceptability: CSU; UC – Credit determined by UC upon review of course syllabus.  
Field study of the fauna and biota of marine intertidal and subtidal habitats of selected geographic regions, with emphasis placed upon field identification, observation and interpretation of behavioral and ecological interrelationships of living things to their environment and to one another. See Class Schedule for locality to be visited.

BIOL 195D Field Studies in Island Ecology  
2, 4, or 6 hours lecture/laboratory  
Note: Fee charged; may be taken 4 times  
Transfer acceptability: CSU  
Field study of the unique ecology of islands, emphasizing systematics, speciation, observation and interpretation of the interactions of indigenous and exotic biota, and how the biotic communities of the study island(s) have adapted to the special limitations of their confined environments. See Class Schedule for locality to be visited.

BIOL 195E Field Studies in Tropical Biology  
2, 4, or 6 hours lecture/laboratory  
Note: Fee charged; may be taken 4 times  
Transfer acceptability: CSU  
Field study of the unique ecology of islands, emphasizing systematics, speciation, observation and interpretation of the interactions of indigenous and exotic biota, and how the biotic communities of the study island(s) have adapted to the special limitations of their confined environments. See Class Schedule for locality to be visited.
Field study in the fauna and flora of selected tropical regions, with emphasis placed upon field identification, observation and interpretation of behavioral and ecological interrelationships of living things to their environment and to one another. See Class Schedule for locality to be visited.

**BOT 197  Biology Topics**  
(5-4)  
Units awarded in topics courses are dependent upon the number of hours required of the student. Any combination of lecture, laboratory, or lecture/laboratory may be scheduled by the department. Refer to Class Schedule.  
*Note:* May be taken 4 times  
**Transfer acceptability:** CSU; UC – Credit determined by UC upon review of course syllabus.  
Topics in Biology. See Class Schedule for specific topic offered. Course title will designate subject covered.

**BOT 200  Foundations of Biology I**  
(5)  
3 hours lecture-6 hours laboratory  
**Prerequisite:** A minimum grade of ‘C’ in CHEM 110, or concurrent enrollment in CHEM 110  
**Transfer acceptability:** CSU; UC*  

**BOT 201  Foundations of Biology II**  
(5)  
3 hours lecture-6 hours laboratory  
**Prerequisite:** A minimum grade of ‘C’ in BIOL 200, or concurrent enrollment in BIOL 200  
**Transfer acceptability:** CSU; UC*  
An examination of the diversity of life, as seen in the Eubacteria, Archaea, and Eukarya, emphasizing the integration of structure and function, development, life histories, phylogenetics, animal behavior, and ecology. Recommended for biology majors.

**BOT 215  Introduction to Biostatistics**  
(4)  
3 hours lecture-3 hours laboratory  
**Prerequisite:** A minimum grade of ‘C’ in MATH 110 and BIOL 201  
*Note:* This course does not qualify for mathematics credit  
**Transfer acceptability:** CSU; UC*: max credit for one course: BIOL 215, PSYC 205, or SOC 205 and MATH 120, one course  
An introduction to the quantitative analysis of biological data. Founded on the principles of the scientific process, this course provides experience in the design of biological experiments and the appropriate analysis and interpretation of biological data.

**BOT 295  Directed Study in Life Science**  
(1,2,3)  
3, 6, or 9 hours laboratory  
**Prerequisite:** Approval of project or research by department chairperson  
*Note:* May be taken 4 times  
**Transfer acceptability:** CSU; UC – Credit determined by UC upon review of course syllabus.  
Independent study for students who have demonstrated skills and/or proficiencies in biology subjects and have the initiative to work independently on projects or research outside the context of regularly scheduled classes. Students will work under the personal supervision of an instructor.

**Botany (BOT)**

Contact the Life Sciences Department for further information.  
(760) 744-1150, ext. 2275  
Office: NS-207A

**COURSE OFFERINGS**

**BOT 100  General Botany**  
(4)  
3 hours lecture 3 hours laboratory  
*Note:* Not open to students with prior credit in BOT 101 or 101L.  
**Transfer acceptability:** CSU; UC – BOT 100 and 101/101L combined: maximum credit, 4 units

The diversity, structure, and function of major plant groups including cellular metabolism, soil water relationships, classification, genetics, life cycle patterns, growth, and the basic ecological and evolutionary concepts of botany. This is a general education course intended for non-science majors.

**BOT 101  General Botany Lecture**  
(3)  
3 hours lecture  
*Note:* Not open to students with prior credit in BOT 100  
**Transfer acceptability:** CSU; UC – BOT 100 and 101/101L combined: maximum credit, 4 units

The diversity, structure, and function of major plant groups including cellular metabolism, soil water relationships, classification, genetics, life cycle patterns, growth, and the basic ecological and evolutionary concepts of botany.

**BOT 101L  General Botany Laboratory**  
(1)  
3 hours laboratory  
**Prerequisite:** A minimum grade of ‘C’ in BOT 101, or concurrent enrollment in BOT 101  
*Note:* Not open to students with prior credit in BOT 100  
**Transfer acceptability:** CSU; UC – BOT 100 and 101/101L combined: maximum credit, 4 units  
A laboratory course in plant biology. Special emphasis on the structure, growth, function, genetics, and life cycles of major plant groups. This is a general education course intended for non-science majors.

**BOT 110  Botany of Spring Wildflowers**  
(4)  
3 hours lecture-3 hours laboratory  
**Transfer acceptability:** CSU; UC  
The identification, distribution, and interrelationships of plants in their natural environment; ecological principles; and representative plant communities. Special emphasis will be given to the study of plant families and the use of taxonomic keys.

**BOT 115  Plants and People**  
(3)  
3 hours lecture  
**Transfer acceptability:** CSU; UC – No credit if taken after 100 or 101/101L  
The role of plants in the world ecosystem, including past and present cultural and economic uses for food, medicine, and industrial products. Principles of plant structure and function, with selected topics on plant diversity, plant adaptations, and the interrelationships between plants and people will also be discussed.

**BOT 195  Field Study of Native Plants**  
(1,2,3)  
2, 4, or 6 hours lecture/laboratory  
*Note:* May be taken 4 times  
**Transfer acceptability:** CSU; UC – Credit determined by UC upon review of course syllabus.  
Extended field study of the flora of selected geographical areas including habitats, adaptations, and identification of native and naturalized species. See Class Schedule for locality to be visited. Fee charged.

**BOT 197  Botany Topics**  
(5-4)  
Units awarded in topics courses are dependent upon the number of hours required of the student. Any combination of lecture, laboratory, or lecture/laboratory may be scheduled by the department. Refer to Class Schedule.  
*Note:* May be taken 4 times  
**Transfer acceptability:** CSU; UC – Credit determined by UC upon review of course syllabus. Topics in Botany. See Class Schedule for specific topic offered. Course title will designate subject covered.

**Business (BUS)**
