

Internship Opportunity

Company:	Tree San Diego
Internship Position:	Project Administration Intern
College Credit:	You can earn college credit for your job or internship. Contact the Cooperative Education department at 760.744.1150 x2355 or jjarvinen@palomar.edu

Organization Background

Tree San Diego is a 501(c)(3) tax-exempt organization addressing the significant deficit in the San Diego region's tree canopy, thereby contributing to human and environmental health. We collaborate with governmental, non-profit, and private entities including ones that work for human and environmental sustainability and justice. Our mission is to significantly increase the number and impact of urban trees in San Diego County and beyond—by adding right trees, in right places, for right reasons, with right care, i.e., “Terrific Trees”.

Key Responsibilities

- Support an existing project to plant and/or maintain trees, including event planning and execution, volunteer management, and community building.
- Assist in creating marketing material; update and edit TreeSD website as needed, post on various TSD social media outlets – Facebook, Instagram, Twitter
- Help represent TreeSD at various events — all necessary outreach for a successful non-profit organization. Teach the skills needed to plant and care for trees, provide education on how to identify tree species and how trees can benefit environmental and human health in association with certified arborists and related experts.
- Develop skills in creating educational and training materials.

Qualifications/Minimum Requirements

Applicants should have an interest in the environment and live within San Diego County. Preferably students who are working towards a bachelor's degree or would be taking this internship for credit.

Internship Opportunity
