

# NEW HIRES NEEDED

## **Paid Internships and Jobs Available in IT and Telecommunications with NOVA!**

**There are positions available for students at every level!**

Nova Voice & Data Systems is a state-licensed California contractor that installs voice, data, and fiber optic cables within commercial buildings.

We are looking for students who are interested in:

- **A flexible, paid, full-time or part time position**
- Designing and installing cabled data networks
- VoIP phone systems
- Telecommunications technology
- Cisco and Toshiba telephone systems
- Becoming an IT professional

No prior experience? **We can train you!** You'll have real examples to work on and projects to complete on-site with our experienced technicians and system engineers. We will teach you:

- cabling color code
- the use of cable categories (Cat5E, Cat6, Cat6a)
- punch down termination
- wire management
- patch panel installation
- put you on a track to earn certificates if desired
- how to package and ship materials, and more!

**We also have part-time and full-time positions for those who already have a CCNA, CCNP, or CCIE!**  
**Specialties in Route Switch, Voice, and Security are extremely desired!**

Desired Employee Traits:

- Honest and professional individuals
- Dedicated and efficient workers
- Ability to think on your feet
- Proactive self-starters

Please send in your resume to [jg@enova.us](mailto:jg@enova.us) or [service@enova.us](mailto:service@enova.us). Make sure to include your full name, contact information, and a brief cover letter (can be written in the initial email).

*Thank you,*

Jim Gibson
