

**Come and hear what it's like to be a programmer from someone who has been in the industry since the '80s**

## **Palomar Women in Computer Science Presents:**

### **Dr. Mary Ann Horton**

Dr. Horton received her Ph.D. in Computer Science from UC Berkeley in 1981 and has over 40 years of Unix and Linux experience. She is an Internet pioneer who contributed to Berkeley UNIX (BSD), including the vi text editor, created the first email attachment tool, uuencode, and led the growth of Usenet (an early social media network) in the 1980s.

**Thanks to her code we are able to send non-text email attachments.**

**Palomar College Governing Board Room  
SSC-1**

**Thursday, April 4th, 2:00pm**
