Introduction

The Palomar College governance structure involves faculty, staff, administration, students, and the community in the planning and operation of the College.

The governance structure and practices embrace the Palomar College values of supporting inclusiveness of individual and community viewpoints in collaborative decision-making processes; promoting mutual respect and trust through open communication and actions; and fostering integrity as the foundation for all we do. The Governing Board is the final authority for governance at Palomar College. The Governing Board delegates authority to the Superintendent/President who in turn solicits and receives input through the shared governance decision-making process.

Organization

The Strategic Planning Council, as the principal participatory governance body of the College, creates the processes for recommending College policies and governance committee structures. The Strategic Planning Council reviews actions, recommendations, and requests of planning groups and task forces. The Strategic Planning Council amends and guides the Planning processes and recommends policies and procedures to respond to the changing needs of the student population and the internal and external environments. The Strategic Planning Council develops, implements, evaluates continuously and revises, if necessary, the District’s plans and initiatives, both long-term and short-term. A three-year planning cycle is used to implement the Strategic Plan.

An Annual Implementation Plan outlines the tasks and actions to be accomplished during the upcoming year. The Strategic Planning Council will review the Annual Implementation Plan three times during an academic year to evaluate progress toward the Vision and strategic goals of the College.

The Superintendent/President serves as the chair of the Strategic Planning Council. To provide communication within the governance structure, all planning council chairs report progress on their objectives and activities at each Strategic Planning Council meeting.

Representation

The governance structure provides for representation from seven recognized constituencies at Palomar College; students, Faculty Senate, bargaining unit faculty, bargaining unit classified staff, Administrative Association members, Confidential and Supervisory employees, and senior and executive administration.

Appointments from the constituencies, when not specified by position, are made by the following:
- ASG – students
- Faculty Senate – faculty on academic and professional matters
- PFF/AFT – faculty
- CCE/AFT – classified staff
- Confidential and Supervisory Team (CAST) – supervisors and confidential employees
- Administrative Association – directors and managers
- Superintendent/President – senior and executive administrators
The constituent appointees serve the length of term designated by their representative group.

**Responsibilities of Representatives**

The primary responsibilities of representatives are as follows:

- prepare for and attend meetings
- participate in discussions
- communicate with individual constituencies; and
- contribute to informed decision making.

**Recommendation Process**

Recommendations shall emerge ideally as a result of group consensus. When consensus cannot be reached, a majority of members shall determine the recommendation.

Each chair is responsible for communicating recommendations through the appropriate administrative and/or governance structure.

All representatives are responsible for keeping their respective constituencies informed of the proceedings and recommendations.

The process for presenting items first for Information, then for Action at a subsequent meeting shall be followed, thus allowing sufficient time for discussion. Allowance will be made for suspending this process when deemed appropriate by a majority.

**Definitions of Governance Structures**

- **Council** – A group of constituency representatives designated or selected to act in an advisory capacity that meets on a regular basis. The charge of a council entails college-wide issues and reports directly to the Strategic Planning Council (SPC).

- **Operational Committee** – A standing committee of constituency representatives intended to consider all matters pertaining to procedural issues as defined by its role. An operational committee is part of the governance structure.

- **Subcommittee** – A permanent sub group convened by a standing committee or council designated to consider specific subjects in detail for recommendations back to the standing committee or council. The chair must be a member of the committee or council to which it reports. Other members need not be members of the committee to which it reports but may be appointed by the appropriate constituent group(s) as defined by the subcommittee membership.

- **Ad Hoc Committee** – A working group or sub-group created by a council or operational committee to address and make recommendations on a particular subject. The members need not be from a council or committee.

- **Task Force** – A constituency-represented group specifically convened by and reporting to SPC or to the Superintendent/President to address a special college-wide subject/issue and meets until the subject/issue is resolved.
Not part of the Governance Structure

Advisory Committee – A group created to provide direction and/or input in compliance with state and federal regulations or other external mandates. Not part of the governance structure but may bring items to SPC as information only. Membership may be defined by state and federal regulations or external mandates and may be appointed by the appropriate constituent group(s).

Open Access

Governance meetings are public. In addition to representation afforded to individuals through constituencies, other individuals and groups may be heard in any governance meeting by requesting and receiving permission from the chair to participate and/or have items added to the agenda. Written minutes will be prepared for all governance meetings. Agendas, minutes, reports, and other work products of all governance committees and other groups involved in governance should be made readily accessible to all interested parties.

Approved/Revised by SPC 04-04-06
Governance is most effective when all constituents using the process to seek solutions, decisions, and actions understand the distinction between operational ideas, issues, or problems and governance ones. The flow chart on the following page was developed by the constituent leaders of the Strategic Planning Council in October 2003, to differentiate the communication flow of operational decisions versus governance processes from initiation through resolution. The flow is not to be interpreted as linear in one direction, but rather reflects two-way communication which can be accessed at any point through administrative structure or through governance structures and processes depending on the idea, issue, or problem.
The sources of ideas, problems, etc., may be initiated at any box above or from outside mandates.
