

**Section 1.2: Applications of Linear Equations: Modeling****Key Topics:** procedure for solving applications, simple interest, uniform motion, work rate

Procedure for Solving Applied Problems	
<b>Step 1</b>	_____
	_____
	_____
<b>Step 2</b>	_____
	_____
	_____
<b>Step 3</b>	_____
	_____
<b>Step 4</b>	_____
<b>Step 5</b>	_____
<b>Step 6</b>	_____
	_____

Solve the Practice Problems in this section, showing all steps and making notations to explain your work. Check your answers with those provided in the text.
