Associate in Arts for Transfer -
AA-T, IGETC, and CSUGE requirements are listed in Section 6 (green pages).
• Sociology

Sociology
Sociology is the study of social behavior and human groups and focuses on socio-
rial relationships, how those relationships influence people's behavior and beliefs,
and how societies develop and change. Students will learn the main theoretical
approaches in sociology that explain society on both a micro level through the
study of social interaction, and on a macro scale through the study of large social
institutions. The curriculum for the Associate in Arts in Sociology for Transfer is
intended to develop critical thinking skills, to explore the diversity of our social
world, and to adequately prepare students for transfer to an upper division pro-
gram in Sociology. This degree allows students the opportunity to meet the lower
division transfer requirements for a major in Sociology.
