Twelfth Night - Characters

Orsino loves Olivia, who loves Cesario/Viola. Viola, in turn, loves Olivia. This is the first triangular grouping of characters. The second is Olivia falls in love with Sebastian. Cesario's last brother, and Malvolio loves Olivia.

The character interact and play off one another throughout the play until the last act. Viola and Orsino make the match as do Olivia and Sebastian. Malvolio is the odd man out. Supposedly, all live happily ever after, with the possible exception of Malvolio.
